This clause 15 shall apply between the parties (1) following receipt of the Application, regardless of whether the Application is withdrawn or the Licence is otherwise not granted, (2) during the Licence Term, and (3) after expiry of the Licence. Where the Swedish Society for Nature Conservation is able to provide proof that the damage caused exceeds the penalty amount, the Swedish Society for Nature Conservation shall be entitled to lodge a claim for the higher amount, notwithstanding the penalty provision above.

Product Line: Products that are not covered by the same Licence but which are included in one and the same line, characterised by a common product line name with uniform labels and other product information.

3 Requirements for chemical products

In addition to the terms of sub-clause 9.2 in the General Terms and Conditions, the Swedish Society for Nature Conservation reserves the right to terminate a Licence, even though the relevant Criteria are fulfilled, if new scientific information indicates that the Product or constituents of the Product are likely to cause significant risks to health or the environment.

4 Requirements for Packaging and Recipes, and for Applications that refer to Product Variants or Simplified Applications

4.1 Unless the parties have reached a special agreement to some other effect, the Product shall be sold in Packaging that may be of different sizes. The Good Environmental Choice label shall appear on the front of the Packaging in a clearly visible and appropriate position.

4.2 The Recipe shall specify the ingredients and precise concentrations of the chemical substances that make up the Product.

4.3 The Licence Holder is not entitled to change the Product without written approval from the Swedish Society for Nature Conservation.

4.4 Product Variants may be covered by the same Application and the same Licence as the Product, on condition that:

- a) the Product Variants are marketed and sold under the same product name or designation as the Product, in combination with a distinguishing supplementary name, and
- b) the Packaging and labels for the Product Variants are designed in such a way that it is obvious they belong to a Product Variant and not a new Product.

4.5 If an Application refers to a Product Variant or a Simplified Application this shall be clearly stated in the Application. The provisions in the Licence Terms and Conditions shall also apply to these Product Variants or the Licence

granted on the basis of the Simplified Application. The expiry of an Original Licence will not affect a Licence that has been granted on the basis of a Simplified Application.

5 Fees and payment routines

5.1 The Licence Holder shall pay to the Swedish Society for Nature Conservation non-refundable Application Fees in accordance with this clause.

5.1.1 For each Application for a Licence (except for a Simplified Application), the following applies:

The Licence Holder shall state in the Application whether the Application Fee will be paid in a single payment at the time of Application, or if the Licence Holder wishes to divide the payment into three instalments.

- a) Where the Application Fee is to be paid in a single payment at the time of Application, the fee for each Application is: SEK 14,500.
- b) If the Licence Holder chooses to divide the Application Fee into three instalments, the total fee is SEK 17,000 divided into three consecutive payments of SEK 7,000, SEK 5,000 and SEK 5,000.

5.1.2 Where a Licence Holder submits Applications for several Licences at the same time for Products included in the same Product Line but which will be covered by different Licences, a volume discount on the Application Fee is possible as follows:

Application Fee for Applications 1-2:
SEK 14,500/application

Application Fee for Applications 3-6:
SEK 10,000/application

Application Fee for Application 7 and upwards:
SEK 8,000/application

5.1.3 For each Simplified Application, there will be an Application Fee of: SEK 3,500.

5.1.4 In addition to the Application Fees specified in 5.1.1-5.1.3 above, there will also be an Application Fee for each Product Variant of: SEK 3,500.

5.2 The Licence Holder shall also pay an annual

Licence Fee based on the Licence Holder's invoiced annual turnover in SEK, excluding VAT, per year for the Product, including Product Variants. The Licence Fee is to be paid as follows and the minimum annual Licence Fee is SEK 3,000.

Turnover (annual in SEK)	Licence Fee (per year)
0 – 1 000 000	SEK 3 000
1 000 001 – 33 330 000	0.3 % of the annual turnover
33 330 001 – 100 000 000	SEK 100 000
> 100 000 000	0.15 % of the annual turnover

5.3 The first two payments of Licence Fees are based on the information on expected invoiced annual turnover in SEK for the Product, and Product Variants, provided by the Licence Holder in the Application. Licence Fees for subsequent years are based on the latest approved Inspection. If the Inspection shows that the true Licence Fee differs from that paid by the Licence Holder, this shall be adjusted between the parties as soon as possible.

5.4 If Products are sold in a currency other than SEK, the turnover shall be calculated on the basis of the currency exchange rate in effect on the date the Application was signed and at the end of the year to which the Inspection refers.

5.5 On notification of changes, the Licence Holder shall pay the following fees to the Swedish Society for Nature Conservation:

- a) SEK 1,000 per hour, with a minimum payment of SEK 4,200, for assessment and any approval of changes to a Recipe, and
- b) SEK 1,000 per hour, with a minimum payment of SEK 2,000, for other work on assessing changes to a granted Licence.

5.6 The Swedish Society for Nature Conservation will invoice for the fees specified in this clause 5 as follows:

- a) the Application Fee, or the first instalment of the Application Fee, will be invoiced when the Application reaches the Swedish Society for Nature Conservation,
- b) the Application Fees for any Product Variants and Simplified Applications will be invoiced

- ced when such an Application reaches the Swedish Society for Nature Conservation,
- c) the second instalment of the Application Fee will be invoiced in January of the year after the Application reaches the Swedish Society for Nature Conservation, with the third instalment being invoiced in January the following year. Where a Licence is not granted or a Licence expires, any outstanding instalments of the Application Fee as specified in sub-clause 5.1.1 b above will become immediately due for payment.
 - d) the first Licence Fee will be invoiced by the Swedish Society for Nature Conservation when the Licence has been granted and will be calculated on the basis of the
 - number of months remaining in the current year, excluding the month in which the Licence is granted,
 - e) subsequent Licence Fees will be invoiced by the Swedish Society for Nature Conservation annually in advance, and
 - f) amendment fees and other administrative fees will be invoiced in arrears.

6 Inspection

The Licence Holder is responsible for ensuring that the Inspection accurately reports the invoiced turnover from the Product in SEK, based on the currency exchange rate in effect at the end of the year to which the Inspection refers.
